### TECHNIQUE 1911

#### RESUMES WORK

### Summer Work Reviewed and New Plans Discussed

Technique 1911 board held its first regular meeting yesterday at 4:30 P. M. in the office in the Union. Editor-in-chief D. R. Stevens has been in communication with all members of the board during the summer, and preliminary work is well under way.

Each member of the board was first called upon to state just what they had done so far in their department, and to give a brief outline of their future plans. Little actual work has been done, except in the ground and are departments.

The following have signified their intention of working for the art department: J. T. Arms 1911, S. L. Day 1911, W. D. Foster 1911, H. R. Snyder 1911, J. F. Alter 1911, J. A. Bigelow 1911, S. Bogdasarian 1911, S. A. Francis 1911, J. H. Stoville 1911, L. L. Whetmore 1911, C. S. Watson 1911, Margaret A. Fulton 1911, M. C. Kinney 1911, P. D. Horgan 1912, H. E. Kebbon 1912, A. Campbell 1912 and G. H. Robb 1912.

It was voted to hold weekly meetings at first until things are running smoothly.

It was voted that the Editor-in-chief and the Business Manager be empowered to draw up specifications for the printer. An extension of time will be granted to all candidates for the art staff, and the competition will now be closed on November 1st. The question of the paper on which the book is to be printed was discussed, but nothing definite was done.

The entire board have started with the idea of being the first Technique board that will not lose any members by flunking, and this evil will be at least reduced.

### TARGET PRACTICE AT WAKEFIELD TODAY

### Rifle Club Season Opens with Many Vacancies

Notwithstanding the fact that several of its strong men have left, the Rifle Club expects to do better this year than ever before. The vice-president of the club, C. D. Jacobs has graduated and P. E. Thompson, one of the executive committee, has also left. Among the members who are not back this year are: T. C. Merriman, R. W. Riefkohl, Rodney Wheeler and D. P. Marvin, who has gone into the United States Revenue Cutter service.

Several men have entered applications for membership, among whom are E. G. Brown and K. N. Wildes. It is expected that more freshmen will apply within the next week.

There will be a meeting of the executive committee early next week, to nominate men to fill the two vacancies among the officers. Soon after this meeting, the whole club will meet to commence the work of the year.

For those who have lately entered the school it may be stated that the qualifications for membership to the Rifle Club are two scores of fifteen shots out of a possible twenty-five, at a range of two hundred yards.

There will be practice at the Wakefield range today, where ranges two, three, and five hundred yards, will be tried. The train leaves the North Station at 1:15 P. M. There will be battalion practice at the range next Saturday.

### DINING ROOM

#### SERVICE CHANGED

### Combinations Will Be Served to Men at Tables

Beginning Monday, October 4th, waiter service may be had at the Union, to the limit of the capacity of tables set with cloths on the following terms: Combination Breakfasts—18, 20, 25 and 30 cents.

Luncheon—25 Cents.

Dinner—30 and 40 Cents. The 25 Cent Breakfast and the 40 Cent Dinner are the same as those served to regular boarders.

The waiter service will be conferred to those who order combinations. Smaller orders will be served as before at the lunch counter.

The combination breakfasts will be as follows:

No. 1—18c.

Fruit.

Cereal and Cream.

Coffee.

Roll.

No. 2—20c.

Fruit or Cereal.

Two Eggs.

Coffee.

Roll and Butter.

No. 3—25c.

Fruit.

Cereal and Cream.

Two Eggs.

Coffee.

Roll and Butter.

No. 4—30c.

Fruit or Cereal.

Baked Potatoes.

Coffee.

Roll and Butter.

No. 5—25c.

Fruit of Cereal.

French Fried Potatoes.

Coffee.

Roll and Butter.

No. 6—20c.

Fruit or Cereal.

Bacon and One Egg.

Coffee.

Roll and Butter.

The combination luncheon at 25 cents will generally be as follows:

Soup.

Choice of Entrees.

Vegetables.

Bread and Butter.

Dessert.

The 30 cent dinner will usually be of the following extent:

Soup.

Roast.

Vegetables.

Dessert.

The 40 cent dinner will in general be about as follows:

Soup.

Fish or Entree.

Roast.

Vegetables.

Dessert.

Coffee.

### NEW DESCRIPT. SYSTEM

### Divided Responsibility Removed from Instructors

A new method of teaching descriptive geometry and mechanical drawing is being used with this year's entering class. Under the old method the lectures were given in Huntington Hall by one member of the instructing staff of the department and instruction in the drawing room by another member. In this way, although all were responsible for the men getting through the course successfully, there was no individual responsibility. Accordingly it was thought best to divide the class into small sections, as is done in mathematics, for example.

(Continued on page 3.)

### RECEPTION DRAWS

#### LARGE CROWD

### Speeches of Men Well Received at Y. M. C. A. Evening

With a gathering of two hundred or more men, the Y. M. C. A. opened the social activities of the year. After a prelude of a number of selections, some from the Show, rendered by the Tech Orchestra, the speeches of the evening were begun. As the first speaker of the evening, J. Ahlers 1910, called upon President MacLaurin. This was the sign for great applause and the President took his place before the men amid much clapping.

After expressing to those present his pleasure at meeting them in this private way, President MacLaurin acknowledged, that in doing so he had declined the opportunity to preside at Dr. Cook's lecture, where, he asserted, the explorer would tell how he did or did not reach the pole. The advantages of social activity are, in a large measure, to avoid the narrowing so often resulting from a professional career. Seize every opportunity to broaden one's self by companionship with one's fellow students. To speak informally to the student body, under the auspices of this association, he deemed, especially fortunate. Many look upon this association as of some foreboding nature, and seem to see the serious side as an objection. But as it does deal with the most serious part of a man's career, so it should be given a fair and honest consideration. Two difficulties, he said, seemed to cause men to shirk the attempt to solve the question of life. One the intellectual difficulties, brought about by the great change in the way of thinking, had caused men to turn from the problem or assume a determined attitude of unbelief. It is not nearly so important to think right, as to act right. On the other hand the moral difficulty caused men to turn away, as many doubted whether they ought to profess what they feared they could not live up to. In conclusion, he said, "Look at the problem seriously as you look at every other problem. Do not shirk it."

The chairman then called upon representatives of the student activities, beginning with R. H. Ranger 1911. The Tech, the speaker offered to the new men as a gilt edge security. As 57 positions are connected with the paper, he urged, that most any one could find in one of them the recreation which he need. Business, advertising, circulation and news offer varied fields for student work. To butt into other's business is the business of the paper, but to do it with tact is the training it gives. The system of working on but one issue a week allowed, he said, a freedom from conflict with work.

After a musical interlude, the Tech Show, as introduced by its general manager, Dudley Clapp 1910. You cannot always lead in athletics, but you have now the best college show in the country. In fact, this is the only place where the Show belongs equally to all. One hundred men are connected with it every year, and its business department handled over \$8000 in the past season. After Field Day come, the competition for business manager from the freshmen class, then the lyric and poster contests, followed by the music writing, all of which are open to all. After mid-year, the cast is picked, about seventy in all, and the rehearsals continued until April, when the trip is taken to Northampton, and perhaps elsewhere this year. With its high standings, acquaintances and dinners, the Show offers a field for all. Finally as a last argument, he paraphrased thus:

(Continued from page 2.)

### TECH DINNER

#### TO FRESHMEN

### Professors Will Instruct Entering Class

Tonight at 6:30, 1913 will start off its college course with a dinner which bids fair to be the biggest freshman dinner yet held at the Institute.

For a menu, Steward Colton has drawn up the best combination ever heard of around here something that has things like oyster patties as the minor components.

On account of the large number of freshmen who will turn up, it is doubtful whether the warlike attempts of the sophomores will mar the happiness of the gathering. Still, there have been ominous councils of late which promise that whatever may happen, 1912 at least has deep laid plots, one of which in particular has something to do with a disappearing act of one who was recently chosen to direct the formation of the class of 1913.

For the faculty, Dean Burton will give a talk at the dinner on the ideals of student life and work at the Institute. Of all those here, the Dean is perhaps the one best adapted to telling these things, because he has been intimately acquainted with the Institute since he first entered it as a topographical engineering instructor in 1892, and he has been acquainted with those vital student affairs which have come to him in his office as Dean since 1902.

Mr. Humphreys will give a glimpse into that little known but very important department of the Institute, that of registration and arrangement of the classes and hours. Mr. Litchfield will speak about the relations of the alumni to the students and between his sudden outbursts of "that reminds me" will probably tell something about the proper relations of student activities to study.

Professor D. C. Jackson, head of the department of electrical engineering, will give a talk on his views of what student life should be. He, unlike Prof. Burton, has only been at the Institute since 1906. Therefore he will be very able to compare how they do things at the University of Wisconsin, where he was professor before 1906, with what he has seen done here.

Couch Kanaly will address the class on the subject of athletics, with which he has been so closely connected since 1907. Besides the work of coaching at the Field, which he has done for the past two years, he will this year take up the addition work involved in directing the gymnasium work required of the freshmen. K. D. Fernstrom 1910, will also tell about the season tickets.

After the speaking, the class will line up in Trinity Place and make that time honored march through the down-town streets, finally winding up at Rogers' steps for cheering. The sophomores will undoubtedly attempt to break up the procession, and the freshmen will only succeed in completing the route by keeping in close order.

### CLASS ATHLETICS

At the Field yesterday four men from the freshmen and sophomore classes reported for the mile events. Ferry 1912, Dalrymple 1912, Bylund 1913 and L. Hart 1913. For the 1912 relay, there were present: Becker, L. B. Duke, Grant, Oettinger, L. S. Ballard, Applequest and Brown. Nine men reported for 1913 relay.

At the oval, 1912 had football practice with twelve men present. At the gym eleven sophomores reported for tug-of-war practice, and eighteen freshmen

## CURRENT EVENTS

The army yesterday added its tribute to that which the navy has paid to honor the memories of Henry Hudson and Robert Fulton, in the form of a monster military parade.

With the flag of the Peary Arctic Club flying at her masthead, the steamer Roosevelt, which bore Commander Peary on his quest of the North Pole, arrived in New York harbor yesterday, just in the nick of time to participate in the closing ceremonies of the Hudson-Fulton ceremonies today.

The Neptune, Great Britain's latest 20,250 ton Dreadnought was launched at Portsmouth yesterday by the Duchess of Albany. The bulkheads of this super-Dreadnought are so heavily armored that experts consider her practically unsinkable by a torpedo.

The Wright brothers are seeking an injunction against Glenn H. Curtiss and the Herring-Curtiss Company, to restrain the defendants from making, using, or selling the so-called Curtiss aeroplane, on the grounds that Curtiss has infringed upon the Wright brothers' patent.

Rodin's statue of Victor Hugo was unveiled in Paris with elaborate ceremonies yesterday, and the week's celebrations to commemorate the fiftieth anniversary of the appearance of the "story of the centuries" were thus inaugurated. There will be a ceremony at the Pantheon, a revival at the Comedie Francaise of "Le Roi S'Amuse" and a ceremony in front of Notre Dame with a procession of vagabonds carrying torches.

The mayors of all the cities in Alaska and the editors of the leading newspapers have joined in sending President Taft a telegram, urging him to aid them in securing the passage of a Congressional Act, giving Alaska an elective Legislature.

President Taft spent yesterday at the Alaska-Yukon-Pacific Exposition at Seattle, there reviewing a parade of soldiers, marines, school children, Igorrotes, Indians, Eskimos and Japanese in costume. The President was also initiated into the Arctic Brotherhood, receiving a membership ticket inscribed on caribou skin and embellished with twenty gold nuggets from as many Alaskan and Yukon samps.

## CROSS COUNTRY

### Loss of Old Men Will Not Cripple Team

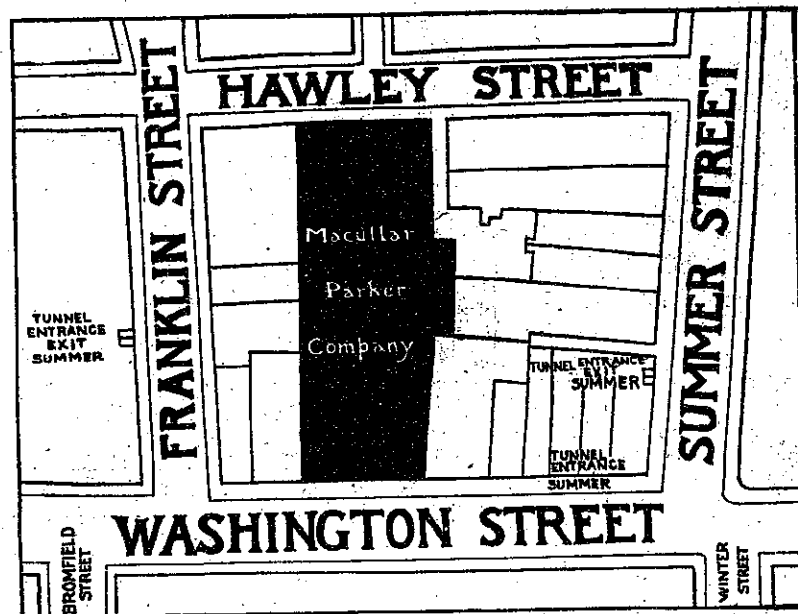

Although Technology has lost four of her best cross-country men this year, there is a wealth of material, which, with hard consistent work, should place her name well toward the top in the intercollegiate races.

H. H. Howland, R. Ellis, J. N. Stephenson, and J. F. McCarthy have graduated. All these men are veterans, having placed several times for Technology; and the first two have captained a Technology team.

Coach Kanaly has had the team candidates at work early, but it is too soon to make any definite statement. Among the old men who are at work again are: R. C. Jacobs 1910, captain; L. O. Mills 1911, P. D. White 1911, H. G. Watkins 1912, C. P. Eldred 1911, J. D. McKenzie 1911, W. T. MacCreadie 1911, H. S. Benson 1912, R. D. Van Alstine 1911, B. C. Huber 1911, and V. V. Ballard 1912.

W. Byland and L. Hart are two freshmen who are showing up well.

#### RESUMES WORK

### Summer Work Reviewed and New Plans Discussed

Technique 1911 board held its first regular meeting yesterday at 4:30 P. M. in the office in the Union. Editor-in-chief D. R. Stevens has been in communication with all members of the board during the summer, and preliminary work is well under way.

Each member of the board was first called upon to state just what they had done so far in their department, and to give a brief outline of their future plans.

Little actual work has been done, except in the grading and are departments.

The following have signified their intention of working for the art department: J. T. Arms 1911, S. L. Day 1911, W. D. Foster 1912, H. R. Snyder 1911, J. F. Alter 1911, J. A. Bigelow 1911, S. Bodgasarian 1911, S. A. Francis 1911, J. H. Stoville 1911, E. L. Whitmore 1911, C. S. Watson 1911, Margaret A. Fulton 1911, M. C. Kinney 1911, P. D. Horgan 1912, H. E. Kebbon 1912, A. Campbell 1912 and G. H. Robb 1912.

It was voted to hold weekly meetings at first until things are running smoothly.

It was voted that the Editor-in-chief and the Business Manager be empowered to draw up specifications for the printer. An extension of time will be granted to all candidates for the art staff, and the competition will now be closed on November 1st. The question of the paper on which the book is to be printed was discussed, but nothing definite was done.

The entire board have started with the idea of being the first Technique board that will not lose any members by flunking, and this evil will be at least reduced.

### TARGET PRACTICE AT WAKEFIELD TODAY

### Rifle Club Season Opens with Many Vacancies

Notwithstanding the fact that several of its strong men have left, the Rifle Club expects to do better this year than ever before. The vice-president of the club, C. D. Jacobs has graduated and P. E. Thompson, one of the executive committee, has also left. Among the members who are not back this year are: T. C. Merriman, R. W. Riefkohl, Rodney Wheeler and D. P. Marvin, who has gone into the United States Revenue Cutter service.

Several men have entered applications for membership, among whom are E. G. Brown and K. N. Wildes. It is expected that more freshmen will apply within the next week.

There will be a meeting of the executive committee early next week, to nominate men to fill the two vacancies among the officers. Soon after this meeting, the whole club will meet to commence the work of the year.

For those who have lately entered the school it may be stated that the qualifications for membership to the Rifle Club are two scores of fifteen shots out of a possible twenty-five, at a range of two hundred yards.

There will be practice at the Wakefield range today, where ranges two, three and five hundred yards will be tried. The train leaves the North Station at 1:15 P. M. There will be battalion practice at the range next Saturday.

### DINING ROOM

#### SERVICE CHANGED

### Combinations Will Be Served to Men at Tables

Beginning Monday, October 4th, waiter service may be had at the Union, to the limit of the capacity of tables set with cloths on the following terms: Combination Breakfasts—18, 20, 25 and 30 cents.

Luncheon—25 Cents.

Dinner—30 and 40 Cents.

The 25 Cent Breakfast and the 40 Cent Dinner are the same as those served to regular boarders.

The waiter service will be conferred to those who order combinations. Smaller orders will be served as before at the lunch counter.

The combination breakfasts will be as follows:

No. 1—18c.

Fruit.

Cereal and Cream.

Coffee.

Roll.

No. 2—20c.

Fruit or Cereal.

Two Eggs.

Roll and Butter.

No. 3—25c.

Fruit.

Cereal and Cream.

Two Eggs.

Roll and Butter.

No. 4—30c.

Fruit or Cereal.

Baked Potatoes.

Roll and Butter.

No. 5—25c.

Fruit or Cereal.

French Fried Potatoes.

Roll and Butter.

No. 6—20c.

Fruit or Cereal.

Bacon and One Egg.

Coffee.

Roll and Butter.

The combination luncheon at 25 cents will generally be as follows:

Soup.

Choice of Entrees.

Vegetables.

Bread and Butter.

Dessert.

The 30 cent dinner will usually be of the following extent:

Soup.

Roast.

Vegetables.

Dessert.

The 40 cent dinner will in general be about as follows:

Soup.

Fish or Entree.

Roast.

Vegetables.

Dessert.

Coffee.

### NEW DESCRIPTIVE SYSTEM

### Divided Responsibility Removed from Instructors

A new method of teaching descriptive geometry and mechanical drawing is being used with this year's entering class. Under the old method the lectures were given in Huntington Hall by one member of the instructing staff of the department and instruction in the drawing room by another member. In this way, although all were responsible for the men getting through the course successfully, there was no individual responsibility. Accordingly it was thought best to divide the class into small sections, as is done in mathematics, for example.

After mid-year, the cast is picked, about seventy in all, and the rehearsals continued until April, when the trip is taken to Northampton, and perhaps elsewhere this year. With its high standings, acquaintances and dinners, the Show offers a field for all. Finally as a last argument, he paraphrased thus:

(Continued from page 2.)

### TECH DINNER

#### TO FRESHMEN

### Professors Will Instruct Entering Class

Tonight at 6:30, 1913 will start off its college course with a dinner which bids fair to be the biggest freshman dinner yet held at the Institute.

For a menu, Steward Colton has drawn up the best combination ever heard of around here something that has things like oyster patties as the minor components.

On account of the large number of freshmen who will turn up, it is doubtful whether the warlike attempts of the sophomores will mar the happiness of the gathering. Still, there have been ominous councils of late which promise that whatever may happen, 1912 at least has deep laid plots, one of which in particular has something to do with a disappearing act of one who was recently chosen to direct the formation of the class of 1913.

For the faculty, Dean Burton will give a talk at the dinner on the ideals of student life and work at the Institute. Of all those here, the Dean is perhaps the one best adapted to telling these things, because he has been intimately acquainted with the Institute since he first entered it as a topographical engineering instructor in 1882, and he has been acquainted with those vital student affairs which have come to him in his office as Dean since 1902.

Mr. Humphreys will give a glimpse into that little known but very important department of the Institute, that of registration and arrangement of the classes and hours. Mr. Litchfield will speak about the relations of the alumni to the students and between his sudden outbursts of "that reminds me" will probably tell something about the proper relations of student activities to study.

Professor D. C. Jackson, head of the department of electrical engineering, will give a talk on his views of what student life should be. He, unlike Prof. Burton, has only been at the Institute since 1906. Therefore he will be very able to compare how they do things at the University of Wisconsin, where he was professor before 1906, with what he has seen done here.

Coach Kanaly will address the class on the subject of athletics, with which he has been so closely connected since 1907. Besides the work of coaching at the Field, which he has done for the past two years, he will this year take up the addition work involved in directing the gymnasium work required of the freshmen. K. D. Fernstrom 1910, will also tell about the season tickets.

After the speaking, the class will line up in Trinity Place and make that time honored march through the down-town streets, finally winding up at Rogers' steps for cheering. The sophomores will undoubtedly attempt to break up the procession, and the freshmen will only succeed in completing the route by keeping in close order.

### CLASS ATHLETICS

At the Field yesterday four men from the freshmen and sophomore classes reported for the mile events. Ferry 1912, Dalrymple 1912, Bylund 1913 and L. Hart 1913. For the 1912 relay, there were present: Becker, L. B. Duke, Grant, Oettinger, L. S. Ballard, Applequest and Brown. Nine men reported for 1913 relay.

At the oval, 1912 had football practice with twelve men present. At the gym eleven sophomores reported for tug-of-war practice, and eighteen freshmen

BOSTON, MASS., OCTOBER 2, 1909.

A hurricane to all intents and purposes, has recently vitiated the general library, but doubtless it was only 1913. At any rate, The Tech hopes and believes that no man who has been in the Institute a year or more has been or ever will be guilty of making the library look as though the dump carts of the city of Boston had left their refuse there.

For the benefit of 1913, The Tech takes pleasure in stating that it has become customary for Tech men to respect the library to the extent of refraining from scattering newspapers about the floor and tables, carrying on conversation in a low tone only, and returning books and periodicals to the shelves from which they have been taken.

Prepare, practice, perform 1913 cheers for tonight's dinner.

### COLLEGE FOOTBALL.

The college football season of 1909 is now fairly under way, with all the larger colleges having games scheduled for today. Today's college games include:

Harvard vs Wesleyan at Cambridge.  
Yale vs Syracuse at New Haven.  
Penn vs Dickenson at Philadelphia.  
Princeton vs Stevens at Princeton.  
Dartmouth vs Vermont at Hanover.  
Brown vs Colgate at Providence.  
Williams vs Bates at Williamstown.  
Amherst vs Springfield Training School at Amherst.  
Tufts vs West Point at West Point.  
Holy Cross vs New Hampshire State at Worcester.  
Trinity vs Worcester Tech at Hartford.  
Carlisle vs Bucknell at Carlisle.  
Exeter vs Lowell Textile at Exeter.  
Andover vs Worcester Academy at Andover.

### CALENDAR.

Saturday, October 2.  
2:19 P. M.—Train leaves Back Bay for Hyde Park. First hare and hound run.  
6:30 P. M.—The Tech dinner to 1913.  
Monday, October 4.  
1:00 P. M.—Freshmen class meeting in Huntington Hall.  
4:15 P. M.—Banjo Club trials.  
1:00 P. M.—Tennis election, 21 Rogers.  
All interested come.

## Y. M. C. A. RECEPTION

(Continued from page 1.)

"The boy stood on the burning deck,  
At least that's how he felt  
He was a freshman here at Tech  
Where good hot stuff is dealt.

So if to heaven you would go  
Just learn this lesson well  
You all must come out for the Show  
Or you will go to—Harvard."

Gorton James 1910, Chairman of the Entertainment Committee then spoke of the plans for the coming year. That no engineering subjects were to be dealt with, made the task hard, yet at the same time insured the object, a broadening influence. Railroadings, tariff, aeronautics and national affairs dealt with by able men will make an excellent program.

Donald R. Stevens 1911, then introduced Technique 1911, with an appeal for men of the lower classes to get started in the departments of art, history and grinds. He announced the new systems of grind collectors in each section, whereby all happenings of a humorous nature will be collected, and the system of work recording, whereby a man's record will be given to his class electoral committee.

The track athletics were represented by R. H. Allen 1909, who told of the unexperienced men who had made good, and of the meets of the coming season, and mentioning the ill fortune of his class track athletics, urged the freshmen to regain the prestige of the odd classes.

Mr. E. C. Warner, the college secretary of the Y. M. C. A., after complimenting the Technology Christian Association by a clever story, told of the good work the association was doing. In the other colleges, the association has greatly enlarged, as reports of this and that meeting now indicate to the secretary. In the boarding house problem, there has been much investigation of the character of the houses and lists made for new students. In fact the Association has been the servant of the students, and attempts to exert an influence for the highest and the best in all activities. So interested have leaders of the alumni become in the work, that they are going to support at the Institute a special secretary to meet the students, and search is being made, far and wide, for the right man for the position. Then in closing he urged, a response on the part of the general student body to cooperate with and aid the undertaking in its work.

The gathering then were served with light refreshments, and the orchestra gave some more well received selections.

### CURRENT EVENTS

Dr. Cook, the Arctic explorer was very warmly greeted by the people of Boston upon his arrival in this city yesterday. Last evening Dr. Cook delivered a most interesting stereopticon lecture on his polar quest to a large and enthusiastic audience in Symphony Hall.

To show their appreciation of the hospitality and kindness shown to them on their visit to Yokohama last October, the officers and men of the United States Atlantic fleet of sixteen battleships have subscribed to buy a loving cup to be presented to the Japanese navy through the State department.

## NEW DESCRIPT. SYSTEM

(Continued from page 1.)

Under the new scheme each of the 22 sections of the first year class has an instructor and one of the four small drawing rooms, into which 13 Rogers has been divided, assigned to it. At the first and last exercises of the week, after the lecturing in Huntington Hall, it is necessary to put two sections in the same room, but as it is planned to give mechanical drawing at these exercises, this is not so important. At the mid-week exercise, however, there will be but one section to a room, and it is at this exercise that the descriptive geometry is to be taught. The four rooms will be in charge of the following instructors: Mr. H. K. Barrison, Mr. A. L. Goodrich, Mr. S. A. Breed and Mr. S. E. Gideon. The ground covered by the course will be the same as in previous years, but the details and order of instruction will be left to the men in charge of the section.

The course in second year descriptive geometry will be conducted in the same manner as last year by Professors Ervin Kenison and H. C. Bradley, although as the drawing will be done in 50 Rogers, the sections will be necessarily be smaller.

The course in freehand drawing is in charge of Mr. Frank M. Gracey.

For all men connected with The Tech, there will be a meeting at the office this afternoon at 2 P. M. All are requested to attend.

The Cunard liner Mauretania has again broken all time records for the trip across the Atlantic ocean, making the trip in 4 days, 10 hours and 51 minutes, which is forty-four minutes better than the former record, made by the same boat.

## NOTICES.

The first exercise in Sugar Analysis (Course V, 4th year) will be Tuesday, October 3 at 2 P. M. In 24 W.

### Text-Book.

"The Polariscopes in the Chemical Laboratory," published by Macmillan. GEO. W. ROLFE, Instructor.

### First Year.

Section 20—Mathematics will recite in room 20, Rogers.

### Options in General Studies.

Italian and Spanish were listed on the General Bulletin under the General Studies. They are, however, not accepted by special Faculty action for the Option in the General Study.

WALTER HUMPHREYS,

Registrar.

### Industrial Chemistry.

The exercise in Industrial Chemistry on Monday, October 4th, will be omitted.

Banjo Club—Trials Monday, 4:15, at Union. Everybody gets a chance, come around.

Room in Jamaica Plain; 20 minutes to Institute. Good table board available near by.

Phone Jam. 847-5 T. E. SEARS, M. I. T. 1903.

WIRELESS SOC.—Meeting of all officers and the board of directors in the Union, Monday at 4.00. Very important that all should be present.

Meeting of the Tennis Association, to elect officers and make tournament arrangements. All interested come. 21 Rogers. 1:00 Tuesday.

**It won't leak**  
**MOORE'S**  
**NON-LEAKABLE**  
**FOUNTAIN PEN**  
What would it be worth to you to own a Fountain Pen that you could carry around in your pocket or bag in any position with the positive assurance that it wouldn't leak?  
In Moore's Non-Leakable there is no way in which the ink can possibly leak out. This pen is always ready for instant use, and the moment it touches the paper, writes, without any preliminary shaking, whatever. Furthermore, it will carry all grades of inks, including Copying and India Inks.  
There are many different kinds of Fountain Pens on the market, but there is only one that is absolutely satisfactory, and that is Moore's Non-Leakable.
